Cross Sectional Shape:

Plain rectangular, straight face

Ring Style:

Concentric

Radial Wall Thickness:

0.0340 inches

Overall Width:

0.1850 inches

Standard Bore Diameter:

1.315 inches

Joint Style:

Vertical joint

Material:

Stainless steel

Material Specification:

Fed std, aisi 303 or sae 30303 federal standard single material response

Fsc Application Data:

Turbine, steam

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A08400
