Inside Diameter:

Between 3.3204 inches and 3.3210 inches

Overall Length:

Between 3.610 inches and 3.620 inches

Outside Diameter:

Between 10.810 inches and 10.812 inches

Mounting Hole Diameter:

Between 0.1560 inches and 0.1641 inches

Mounting Hole Quantity:

16

End Application:

Auxiliary power unit, c-5 acft

Product Name:

Support assembly turbine bearing

Special Features:

Original name - support, turbine bearing, assebmly

Material:

Nickel alloy and stainless steel

Material Specification:

Ams5388 assn standard 1st material response and ams5536 assn standard 1st material response and s66286 assn standard 2nd material response

Reference Data And Literature:

Af to. 2g-gtcp165-14

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A521b0
