**Inside Diameter:**

Between 3.3204 inches and 3.3210 inches

**Overall Length:**

Between 3.610 inches and 3.620 inches

**Outside Diameter:**

Between 10.810 inches and 10.812 inches

**Mounting Hole Diameter:**

Between 0.1560 inches and 0.1641 inches

**Mounting Hole Quantity:**

16

**End Application:**

Auxiliary power unit, c-5 acft

**Product Name:**

Support assembly turbine bearing

**Special Features:**

Original name - support, turbine bearing, assebmly

**Material:**

Nickel alloy and stainless steel

**Material Specification:**

Ams5388 assn standard 1st material response and ams5536 assn standard 1st material response and s66286 assn standard 2nd material response

**Reference Data And Literature:**

Af to. 2g-gtcp165-14

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A521b0
