Special Features:

0.625 in. Bar 7.09 in. Lg; spline data typical both end asab5.15-1950 standard involute 12 teeth; diametrical pitch 24/48; pressure angle 30 deg; type: flatroot side fit class a; minor diameter 0.4369 min 0.446 maximum in.; splined 0.4 min 0.42 maximum in.; 6.72 in. Lg; 0.5402 in. Dia; center groove; mating part 371144

Material Specification:

Vasco jet 1000, aisi h11 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10700
