**End Application:**

F16 aircraft emer power unit

**Special Features:**

Actuated by eng failure

**Functional Description:**

Provides instant pressure for emer oper of power turbine unit

**Reference Data And Literature:**

Af to. 2ja5-16-4

**General Description:**

Hot gas pressure produced by chem reaction of hydrazine & rad catalyst

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
