Overall Length:

9.0225 inches

Overall Width:

2.000 inches

End Application:

2g-gtcp33 (250g) , c17 acgft

Design Type:

Axial compressor

Engine Section Location:

Intermediate pressure turbine

Stage Number:

3

Special Features:

Ring blades pn3840022-111, rivetspn868384-1, seal pn868186-2

Material:

Nickel alloy

Material Specification:

Inco713lc pr airesearch ems55079 mfr ref all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10700
