Overall Length:

5.7143 inches

Overall Width:

2.213 inches

End Application:

2g-gtcp331-4 c17 acft

Design Type:

Axial compressor

Features Provided:

Seal

Engine Section Location:

High pressure turbine

Special Features:

Traceability by lot control plus serialization is required. Mark part no., lot no., serial no., per airsearchmc5014 class 16

Material:

Nickel alloy

Material Specification:

Waspaloy ems55388 mfr ref all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10700
