Overall Length:

8.850 inches

Overall Width:

1.740 inches

End Application:

Gtcp33 (250g) , c17 acft

Design Type:

Axial compressor

Engine Section Location:

High pressure turbine

Special Features:

Consists of stator pn3844012-1, piston ring pn3844017-1, rivet pn nas1399c4-5, retainer pn3844058-1, retainer pn3613960-1, statr seal pn3844036-2

Material:

Nickel alloy

Material Specification:

In738lc pr airseah ems55445 mfr ref all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10700
