Overall Length:

10.210 inches

Diameter:

2.000 inches

End Application:

Auxiliary power unit, c-17 acft; af to. 2g-gtcp331-4 applies

Design Type:

Centrifugal

Engine Section Location:

Turbine

Special Features:

Nomenclature per af form 86 is shaft turbine

Material:

Steel

Material Specification:

Ams6265 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A10700
