Nonaircraft Gas Turbine Engine Lubricating Nozzle - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/2835-01-434-2657

Overall Length:
3.130 inches
Diameter:
0.125 inches
End Application:
Engine test set; chain guard assembly.
Engine Section Location:
Turbine
Special Features:
Hydrostatic tested to 75 psi with no leaks.
Material:
Stainless steel flameholder
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A530f0
