| End Application:                                   |
|--|
| Tf-33 aircraft engine                              |
| Design Type:                                       |
| Axial compressor                                   |
| Criticality Code Justification:                    |
| Apgf and czbj                                      |
| Product Name:                                      |
| Vane, turbine nozzle, turbine engine               |
| Engine Section Location:                           |
| Turbine  |
| Material:  |
| Nickel alloy vane                                  |
| Material Specification:                            |
| Pwa653 assn standard single material response vane |
| Shelf Life:  |
| N/a  |
| Unit Of Measure:                                   |
|  |
| Demilitarization:                                  |
| Yes - demil/mli                                    |
| Fiig:  |
| A10700   |
|  |
|  |
