Overall Length:

1.113 inches

Diameter:

16.716 inches

End Application:

Tf-41 aircraft engine

Design Type:

Axial compressor

Criticality Code Justification:

Czbj and czcj and abhp and abmz and feat

Product Name:

Original name band-inner, vane assembly

Engine Section Location:

High pressure compressor

Stage Number:

3

Special Features:

Vane assembly, 27 span; heat treated; t.O. 2j-tf41-4, fig 101, ind 8

Material:

Steel

Material Specification:

Ams2640 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A10700
