**Overall Length:**

1.113 inches

**Diameter:**

16.716 inches

**End Application:**

Tf-41 aircraft engine

**Design Type:**

Axial compressor

**Criticality Code Justification:**

Czbj and czcj and abhp and abmz and feat

**Product Name:**

Original name band-inner, vane assembly

**Engine Section Location:**

High pressure compressor

**Stage Number:**

3

**Special Features:**

Vane assembly, 27 span; heat treated; t.O. 2j-tf41-4, fig 101, ind 8

**Material:**

Steel

**Material Specification:**

Ams2640 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A10700
