Overall Length:

0.765 inches

Overall Width:

0.045 inches

Material Thickness:

0.049 inches

End Application:

J-57 aircraft eng

Stage Number:

15

Special Features:

T.O. 2j-j57-14; goes on the rotor-rear compressor

Material:

Nickel alloy

Material Specification:

Pwa1038 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A503q0
