End Application:

Tf-33 aircraft engine

Design Type:

Compressor

Criticality Code Justification:

Agav

Special Features:

T.O. 2j-tf33-4; goes on the 1st stage front compressor case

Material:

Steel comp 316

Material Specification:

Ams5648 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A10700
