|--|
| Overall Length:                          |
| Between 2.900 inches and 2.920 inches    |
| Overall Width:                           |
| Between 0.360 inches and 0.400 inches    |
| End Application:                         |
| Aircraft eng j79, j85, t58, t64          |
| Criticality Code Justification:          |
| Czbj and abhp and abmk and feat          |
| Product Name:                            |
| Original name strip, sealing             |
| Engine Section Location:                 |
| Turbine                                  |
| Stage Number:                            |
| 3  |
| Special Features:                        |
| T.O. 2j-j79-44, fig 35, ind 15           |
| Material:                                |
| Titanium alloy                           |
| Material Specification:                  |
| B50t83a mfr ref single material response |
| Shelf Life:                              |
| N/a                                      |
| Unit Of Measure:                         |
|  |
| Demilitarization:                        |
| No                                       |
| Fiig:                                    |
