Special Features:

Fsc application data: cylinder assembly, actuating, linear, aircraft engine; precious material location and weight: silver, plated on threads, 0.202 grams

Material:

Stainless steel

General Description:

Agav 29959292206; eia is tf30-10 (f-111f) aircraft engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
