**Diameter:**

Between 4.533 inches and 4.534 inches

**Material Thickness:**

Between 0.620 inches and 0.640 inches

**End Application:**

T58-ge-10 engine

**Material:**

Nickel alloy

**Material Specification:**

Ams5665 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A10700
