Overall Length:

2.301 inches

Overall Width:

1.947 inches

Material Thickness:

Between 0.080 inches and 0.090 inches

End Application:

Aircraft engine 39

Engine Section Location:

Turbine

Material:

Steel shield

Material Specification:

Ams5362 assn standard single material response shield

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530f0
