Material Thickness:

Between 0.033 inches and 0.037 inches

End Application:

Aircraft engine

Criticality Code Justification:

Agav

Engine Section Location:

Turbine

Material:

Steel shield

Material Specification:

Ams5504 assn standard single material response shield

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A530f0
