Overall Length:

2.400 inches

End Application:

Aircraft eng tf33

Criticality Code Justification:

Agav

Engine Section Location:

Compressor

Stage Number:

11

Special Features:

Original name vane, compressor stator, turbine engine

Material:

Steel

Material Specification:

Ams 5504 or 5613 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A10700
