**End Application:**

T701c engine

**Product Name:**

Seal, metallic, special

**Special Features:**

Operating fluid: air; operating pressure 7-85 psig; operating temperature -65 degrees to 550 degrees; leakage at 0.05 lb/minute, leakage at 50 psig air and temperature range; bore diameter 0.3725 in min, 0.3730 inmax; internal groove 0.551 in min, 0.553 in max

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A10700
