End Application:

T701c engine

Product Name:

Seal, metallic, special

Special Features:

Operating fluid: air; operating pressure 7-85 psig; operating temperature -65 degrees to 550 degrees; leakage at 0.05 lb/minute, leakage at 50 psig air and temperature range; bore diameter 0.3725 in min, 0.3730 inmax; internal groove 0.551 in min, 0.553 in max

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10700
