Overall Length:

3.140 inches

Overall Width:

1.000 inches

Diameter:

2.480 inches

End Application:

F100pw0229 aircraft engine

Criticality Code Justification:

Agav

Engine Section Location:

Turbine

Special Features:

Nozzle stator is counterclockwise

Material:

Nickel alloy

Material Specification:

Pwa647 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A10700
