Overall Length:

1.465 inches

Diameter:

10.440 inches

Material Thickness:

Between 0.027 inches and 0.035 inches

End Application:

F110pw0229 aircraft engine

Criticality Code Justification:

Agav

Engine Section Location:

Turbine

Material:

Steel shield

Material Specification:

Ams5510 assn standard single material response shield

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A530f0
