Diameter:

5.074 inches

End Application:

Engine core assembly/low pressure compressor module/crossover duct and no.3 sump module interface; hu-25a falcon jet aircraft

Product Name:

Seal, air, gas turbine engine

Engine Section Location:

Low pressure compressor

Stage Number:

5

Special Features:

Material thickness of body 0.012 in.; flange thickness 0.246; i.D. 4.131

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10700
