Overall Length:

50.750 inches

Diameter:

16.180 inches

End Application:

Ft34 aircraft engine

Criticality Code Justification:

Agav

Engine Section Location:

Turbine

Stage Number:

1

Material:

Nickel alloy

Material Specification:

Ams5798 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A10700
