Overall Length:

1.468 inches

Overall Width:

Between 0.758 inches and 0.766 inches

End Application:

F100pw229

Criticality Code Justification:

Agav

Engine Section Location:

Compressor

Stage Number:

12

Material:

Nickel alloy blade

Material Specification:

Pwa1005 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A10700
