Overall Length:

2.936 inches

Overall Width:

0.674 inches

End Application:

F100-pw-229 aircraft gas turbine engine

Design Type:

Axial compressor

Criticality Code Justification:

Czbj and abhp and abmk

Engine Section Location:

Compressor

Stage Number:

7

Material:

Titanium alloy blade

Material Specification:

Pwa1209 mfr ref single material response blade

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A10700
