End Application:

F110 aircraft gas turbine engine

Design Type:

Axial compressor

Blade Attachment Method:

Pin

Criticality Code Justification:

Czbj and czcj and bglw and feat

Product Name:

Original name on dwg vane, compressor stator

Engine Section Location:

High pressure compressor

Stage Number:

2

Special Features:

T.O. 2j-f110-14, fig 62

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A10700
