Overall Length:

7.000 inches

Diameter:

17.300 inches

End Application:

F100ge-110b engine

Design Type:

Compressor

Criticality Code Justification:

Feat

Product Name:

Number 1 and 2 spool

Engine Section Location:

Compressor

Stage Number:

1 and 2

Special Features:

Use only on the f110ge-110b engine, the basic part number is 1559m63g04

Material:

Titanium disk

Reference Data And Literature:

T.O. 2j-f110-4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A10700
