Overall Length:

9.225 inches

Overall Width:

0.533 inches

Material Thickness:

Between 0.032 inches and 0.042 inches

End Application:

F100-pw-229 aircraft engines

Engine Section Location:

Exhaust

Material:

Nickel alloy

Material Specification:

Ams5599 assn standard all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530f0
