End Application:

F414-ge-400 engine afterburner

Criticality Code Justification:

Agav

Product Name:

Shield, w/v segment-flame holder, igniter

Material:

Cobalt alloy

Material Specification:

Ams 5759 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A530f0
