**End Application:**

Midframe, compressor

**Criticality Code Justification:**

Agav

**Product Name:**

Tube, drain, midframe

**Special Features:**

Material of the tube assembly is steel, corrosion resistant; tube material has 0.312 in od and is 0.035 in thick; material document standard is sae-ams5557 1995

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23800
