End Application:

Midframe, compressor

Criticality Code Justification:

Agav

Product Name:

Tube, drain, midframe

Special Features:

Material of the tube assembly is steel, corrosion resistant; tube material has 0.312 in od and is 0.035 in thick; material document standard is sae-ams5557 1995

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
