Mounting Type:

Trolley

End Application:

Hoist pneumatic pw

Horsepower Rating:

2.7

Maximum Operating Pressure:

90.0 pounds per square inch

Special Features:

Model number 75113ca7 capacity: 4000 to 4300 lbs distance from underside of track to lift surface of hook is 6.50 inches. Lift: 16 fpm, type traverse: sprocket drive air consumption at 90 psig at rated load and speed: hoisting-80 cfm, traversing: 30 cfm weight: 222 lbs less chain and hook, 250 lbs total weight. Hoist and hoistractor can be operated manually

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A526e0
