Body Length:

3.4062 inches

Body Width:

2.000 inches

Body Height:

1.5937 inches

End Application:

Fire pumps. Hh-60h search and rescue, sh-60f carrier based asw, hh-60j uscg search and rescue helicopters. 2-litter, soft top 1 1/4 ton hmmwv ambulance truck. Cargo utility troop carrier, 5/4-ton w/e (m998) truck. Vehicle launch bridge armored (m60a1 & m48a5). Dropside 2 1/2-ton 6x6 w/e cargo truck. Filters.

Design Type:

Reusable

Filtering Element Quantity:

1

Criticality Code Justification:

Feat

Filtering Media Design:

Multiple stacked disks single filtering media response

Special Features:

Weapon system essential

Material:

Steel sediment bowl

Fsc Application Data:

Aircraft air conditioning, heating and pressurizing equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
