Body Diameter:

1.031 inches

Body Inside Diameter:

0.656 inches

Flow Direction:

Outside in

Design Type:

Limited

Bodylength:

2.141 inches

Filtering Media Design:

Molded single filtering media response

Special Features:

One end closed, furnished with one spring, helical compression

Material:

Metal container/cartridge

Media For Which Designed:

Fuel/oil, hydrocarbon

Style Designator:

Cylindrical w/closed ends

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
