Body Diameter:

1.000 inches

Body Inside Diameter:

0.688 inches

Filtration Rating In Microns:

10.0

Flow Direction:

Outside in

Design Type:

Reusable

Temperature Rating:

Between -65.0 degrees fahrenheit and 160.0 degrees fahrenheit

Bodylength:

2.750 inches

Filtering Media Design:

Multiple stacked disks single filtering media response

Special Features:

O.D. Of springnot to exceed 0.688

Material:

Paper filtering medium

Media For Which Designed:

Fuel/oil, hydrocarbon

Style Designator:

Multiple stacked disks, w/out cleaning blades

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
