Body Length:

3.375 inches

Design Type:

Reusable

Filtering Element Quantity:

1

Filtering Media Design:

Single stacked disks single filtering media response

First Intake Connection Type:

Threaded internal tube top

First Discharge Connection Relationship To Intake Connection:

Identical to first intake connection

First Intake Thread Series Designator:

Npt

First Intake Thread Size:

0.125 inches

First Intake Thready Qty Per Inch (tpi):

27

First Intake Thread Direction:

Right-hand

Special Features:

Mtd on line

Material:

Steel sediment bowl

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
