Mounting Type:

Nonstandard

Overall Length:

4.190 inches

Overall Height:

8.380 inches

Overall Width:

4.000 inches

Actuation Method:

Push rod

Fording Feature:

Not included

Ground Polarity Type:

Negative

Vacuum Booster:

Not included

Fuel Filter:

Included

Fuel Filter Location:

Bottom

Priming Lever:

Not included

Inlet Connection Type/size:

0.250-18 npt internal

Outlet Connection Type/size:

0.250-18 npt internal

Drain Facility:

Not included

Voltage In Volts:

12.0

Special Features:

12 volt dc

Terminal Type And Quantity:

2 threaded stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T109-b
