**Body Diameter:**

5.062 inches

**Body Inside Diameter:**

2.750 inches

**Flow Direction:**

Parallel

**Design Type:**

Reusable

**Bodylength:**

6.532 inches

**Filtering Media Design:**

Multiple stacked disks single filtering media response

**Material:**

Copper alloy filtering medium

**Media For Which Designed:**

Fuel/oil, hydrocarbon

**Style Designator:**

Multiple stacked disks, w/out cleaning blades

**Fsc Application Data:**

Fuel system, gasoline engine, nonaircraft

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A24000
