Body Diameter:

5.062 inches

Body Inside Diameter:

2.750 inches

Flow Direction:

Parallel

Design Type:

Reusable

Bodylength:

6.532 inches

Filtering Media Design:

Multiple stacked disks single filtering media response

Material:

Copper alloy filtering medium

Media For Which Designed:

Fuel/oil, hydrocarbon

Style Designator:

Multiple stacked disks, w/out cleaning blades

Fsc Application Data:

Fuel system, gasoline engine, nonaircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
