End Application:

Pump is specifically designed to increase the pressure of, to meter the amount of, and to control the distribution of fuel to the individual fuel injection nozzles and engine combustion chambers

Product Name:

Pump, fuel injection

Special Features:

15.330 in.Std.Drive; 15.490 in. Heavy duty drive

General Description:

15.330 in.Std.Drive; 15.490 in. Heavy duty drive

Fsc Application Data:

Fuel system, diesel engine, nonaircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
