Overall Length:

2.500 inches

Overall Height:

5.380 inches

Actuation Method:

Electric motor

Fording Feature:

Not included

Ground Polarity Type:

Negative

Vacuum Booster:

Not included

Fuel Filter:

Included

Fuel Filter Location:

Bottom

Priming Lever:

Not included

Drain Facility:

Not included

Voltage In Volts:

12.0

Fsc Application Data:

Engine fuel system components, nonaircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T109-b
