End Application:

Mrap - common nsn - used on maxxpro cat i and 4 other weapon systems

Design Type:

Nonreusable

Storage Type:

Unheated warehouse

Product Name:

Strainer (300 micron)

Filtering System For Which Designed:

Full flow

Special Features:

Element, pre-screen fuel filter

Purchase Description Identification:

89346-1817674c1

Fsc Application Data:

Pc-4000 engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
