End Application:

4320-01-092-3551; pumping assembly, flammable liquid; w/s mask, protective, combat vehicle (m42 & m45 series).

Product Name:

Blockor fitting

Special Features:

This part controls the flow rate of starting fluid (ether) being injected into the diesel engine. P/n 250009 has a 90 degree bend, and is identical to the 250005 (nsn4330-01-290-9273) except for the drilled hole size. The part's fit and function is the same. P/n 250009 is for engine sizes .82-3.69 ltr.

Material:

Copper alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
