Flow Control Device:

Float

End Application:

Engine, outboard, mdl bf130a2xa, stdn rotation and engine, outboard, mdl bf103a2xca, counter rotation

Valve Operation Method:

Air

Special Features:

Mfg part name is float valve set which includes a needle, spring, and pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A515n0
