**Body Width:**

8.750 inches

**Body Height:**

20.000 inches

**End Application:**

2 1/2 ton 2 wheel m200 cdn modified for forward area refueller tfaf and uninhabited aeral vehicle refuller uavr, 2700 litre tank and pump unit self contained 20 generic

**First Intake Connection Type:**

Threaded internal pipe head side

**Second Intake Connection Relationship To First Intake Connection:**

Identical

**Special Features:**

150psi maximum operation pressure; matl diameter cast aluminum head and closure clamp assembly; carbon steel shell with epoxy coated exterior and interior; inlet/outlet connection 1 1/2 npt; seal buna-no-ring; weight 8lbs

**Media For Which Designed:**

Fuel/oil, hydrocarbon

**Style Designator:**

High pressure bolted shell

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A24000
