**Overall Length:**

0.880 inches

**End Application:**

Mrap; maxxpro

**Product Name:**

Jet atomizer, ether

**Material:**

Copper alloy

**General Description:**

width across the flats of wrenching feature is 0.562 inches; external thread is designated 0.250 inch nptf; internal thread is designated 0.125 inch npsf; width across the flats of end orifice block is 0.250 inches, ; atomizer screen diameter is 0.930 inches; screen is designated at 110 micron size

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23900
